The Foundation Course in Anthroposophic Nursing is given in four modules over two years in Loveland, Colorado. The training will address the fundamental principles of Anthroposophy, extending particularly to the Anthroposophic view of the human being in health and illness and support of processes of care and healing. This course provides an introduction to the three-fold, four-fold, seven-fold and twelve-fold dynamic relationships of the human being, and of their practical application in nursing care and therapeutic support. Equally important to the practical applications is the path of inner development of the nurse, therapist and caregiver that

elevates how we think, feel and enact our work to its highest potential. This aspect will accompany all of the practical work.

The training includes:

- 1) External Applications of compresses & poultices.
- 2) Therapeutic baths
- 3) Rhythmical Einreibungen according to Wegman/Hauschka – a gentle application of therapeutic oils working with the flow of body forms & processes to support health & well-being.
- 4) The Anthroposophic Nursing Process as a path of inner development of the nurse, therapist & caregiver.

This Foundation Course in Anthroposophic Nursing is open to all interested individuals to enroll. At the completion of each module, Registered Nurses receive a Certificate of Attendance in NAANA's Foundation Course in Anthroposophic Nursing. Other Health Care Professionals and Caregivers receive a Certificate of Attendance in NAANA's Anthroposophic Homecare Course.

This Foundation Course in Anthroposophic Nursing will apply for accreditation by the International Forum for Anthroposophic Nursing (IFAN) in the Medical Section of the School of Spiritual Science at the Goetheanum in Dornach, Switzerland. IFAN represents national professional Anthroposophic Nursing associations worldwide and serves to support and acknowledge training programs in Anthroposophic Nursing. It guarantees the equivalence of training and further training programs of all institutions that are closely connected to the International Forum for Anthroposophic Nursing in the Medical Section at the Goetheanum.
